News Release

Syracuse, NY- MaineSource Food & Party Warehouse announces the consolidation of the Camillus store location into the North Syracuse store. Based upon this consolidation, we will be expanding our North Syracuse location. “We are always evaluating our markets to identify opportunities to strengthen our market share” said Steve Ross, Vice-President in charge of MaineSource. “After long consideration and much analysis, we have determined that our best opportunity to enhance our presence in the Syracuse market is through this consolidation.”

“The most difficult aspect of this decision is the impact on both our hard-working, dedicated associates and our loyal customers at our Camillus location. In order to lessen the impact of this action, we will be offering the opportunity for our associates to transfer to one of our other five MaineSource locations. We will also be doing all that we can to transition our customers to our North Syracuse location” added Ross.

As part of our effort to enhance our market position, the North Syracuse location will be expanding to add a new deli counter carrying various fresh cut meats, cheeses and prepared foods. There will also be a test kitchen added to this location to allow our professional culinary staff to work with our restaurant and other food service customers in development of new offerings for their menus and to increase the efficiency of their operations.

“We ask all of Syracuse, particularly our current Camillus customers, to come and celebrate our expansion and be exposed to a truly unique shopping experience” says Ross
